

Every sign job, from enquiry to invoice.

SignBas3 keeps the sold scope, approved artwork, production work, purchased material, site work and final cost attached to one job – so the next person picks the work up instead of rebuilding it.

01

Enquiry

Capture it with the contact, site and next action.

02

Quote

Structured scope, revisions and recorded acceptance.

03

Artwork

Version-specific proof review, markup and approval.

04

Print / cut

HP PrintOS output matched to the job by filename.

05

Schedule

Readiness, capability and fixed commitments together.

06

Purchase

Requests, approval, receiving and supplier bills.

07

Make

Owned tasks and production status the workshop uses.

08

Install

Assigned jobs, photos, receiving and time from site.

09

Invoice

Operational evidence behind the accounting handoff.

Start with the operating depth the shop needs.

Monthly subscription, no per-job charge. Production and mobile users have restricted operational access rather than full administrative access, so the whole job can stay current without licensing every person like an office user.

Foundation

A\$299

AUD / month

3 office · 5
production / mobile

A smaller sign company replacing disconnected quoting, job, artwork and accounts workflows.

- Leads, clients and structured quoting
- Jobs, tasks and production handover
- Artwork versions and client approvals
- Scheduling, timesheets and mobile work
- Google Drive and Xero integration
- Fitch Assist · 1,000 monthly credits

BEST FIT FOR A
WORKING SIGN SHOP

Production

A\$549

AUD / month

5 office · 10
production / mobile

A shop that needs sales, artwork, purchasing, print, fabrication and installation on the same job.

- Everything in Foundation
- Advanced production scheduling and capacity
- Purchasing, suppliers and PO receiving
- Job cost, WIP and margin control
- HP PrintOS monitoring, costing and ink alerts
- Fitch Assist · 2,500 monthly credits

Control

A\$899

AUD / month

20 office · unlimited
production / mobile

A larger team that needs stronger controls, deeper reporting and a tailored operational rollout.

- Everything in Production
- Advanced roles, approvals and audit history
- Cross-team scheduling and oversight
- Advanced report design and data exports
- WorkflowMax migration mapping and verification
- Fitch Assist · 5,000 monthly credits

WORKS WITH

Xero

Operations stay detailed while accounting stays the ledger.

HP PrintOS

Print output matched to the job by filename.

Google Drive

Your company storage, under your control.

Dropbox

Job files where the business already keeps them.

Prices shown in AUD excluding GST and are current at the date of printing; USD pricing is shown on the website. Additional office users are A\$29 per user per month. Implementation and complex historic data migration are scoped after reviewing the source system and workflow. HP PrintOS connectivity requires an eligible HP account, a supported printer and any HP subscription or service plan required by HP; HP eligibility and charges are separate from SignBas3 pricing.
